

## Specializing in:

Design, Engineering, Manufacturing, Construction, Installation and Commissioning of:

- Pressurised sand filtration systems
- Activated carbon contact systems
- Rapid gravity filtration
- Surface water treatment from rivers, lakes or dams
- Domestic waste water treatment
- Ground water treatment
- Industrial effluents and waste water
- Bulk water supply systems
- Desalination of high saline water (Reverse Osmosis)
- Operation and Maintenance
- Chemical supply
- Water treatment consulting services
- Optimising of existing plants
- Water treatment plant audits on design and engineering
- Engineering of water reticulation systems

## Why Hencro?

Benefits to our Clients:

- Each water treatment plant / facility / component is custom designed to fit the client's needs.
- The best suitable technology is applied
- Cost effective and practical designs are promoted to ensure ease of operation and maintenance.
- Utilization of local companies (Civil and Mechanical)
- Skills development and transfer of knowledge to client personnel and local people
- Local technical and operational support
- Design executed with sound engineering practices to ensure quality and plant longevity

## A little bit about Hencro

Hencro Africa cc, the original Company was founded early 2004 by Mr. HO Cronje. Early 2018 the Company's name and status (Hencro Africa cc) has been changed to **Hencro (Pty) Ltd**.

The company utilizes the decades of knowledge gained by its employees and carefully selected suppliers in the water industry to provide water treatment plants on a turnkey basis. In addition to this, Hencro also manufacture and supply water treatment components, such as filter vessels, clarifiers, DAF units, Pump systems, to the general industry and markets. The original vision of providing high quality, fit for purpose engineered water treatment solutions to our clients is still applied today. We aim to provide complete solutions from inception to commissioning to our clients. Hencro currently have an associated company registered in Mozambique and in a process to further expand into Africa.
